

AWWA Webinar Responses

Great Webinar!

I would like to get a copy of that 'Qualification Doc" that was used in this presentation.

Thank you ...

Hi Richard,

Thank you so much for the Webinar this morning. The information you have given me is going to be key in me developing my new role here at Badger Meter.

Could you please email copies of the forms and anything else you feel would be beneficial in my role?

Thanks so much

Dear Richard,

I jumped in on the webinar about 20 minutes into it, but I heard all the good stuff. This was a fantastic webinar! I definitely want to apply this process for when we exhibit at ACE.10.

I was skeptical when you mentioned your lead follow-up process and now agree that the delivery method does get the attention and is a much better way to go.

Thank you again for this great information. I will share with our sales team as well, who were not able to participate today.

Kind regards,
